

Utility Jack Knives

- LINER LOCK DESIGN:**
 With oversized thumb opening, the locking design holds the blade securely during use, and the knife folds securely to 3½".
- CHANGING BLADES IS EASY:**
 Blade holder is die cast and powder coated with screw on both sides for opening allows easy blade changes and adds strength and durability.
- TWO MODELS AVAILABLE:**
 The same knife with either wood inlay handle inside a precision machined body or ergonomic, easy-grip rubber handle gives you a choice of options.
- INCLUDES FIVE SPARE BLADES:**
 Both models use double-notched standard and contractor-quality blades, and include five spare blades in a reusable holder.

To Change Blade:

Push thumb knob to release blade; pull blade out.

Convenient pouch included with the DA84140, DA84141.

Utility Jack Knife display is 11" x 12".
